James Bond and Gangster Cork Shoot

Why not try our fully themed side stall combined with a good old fashioned cork shoot.

Forget laser guns, there's far more fun loading your cork and physically shooting the gun at the knock over targets.

This is very addictive game play and fun at any event.

Quick Draw machine. James Bond & Gangster.

A superb quick re-action game and is the only one of it's kind in the UK. It has it's advantages over competitors with cable free guns and a state of the art computer programme at it's heart.

How it works, once your holstered up a 15 second random timer starts, when the red light on the character target lights up you draw your gun and shoot as fast as you can, this stops the timer and gives you your score. Lowest score WINS.
