

TJ

Country Music You'll Love

When TJ picks up his guitar and dons one of his distinctive Stetsons the modern sound of Country music comes to life.

T J's interest in music and performing began in his teenage years when he joined a college band playing rhythm guitar and singing lead vocals. From this initial introduction to pop he continued his progression into music getting involved in Folk and Rock, even learning some classical guitar along the way. This early experimentation was, however, eventually to lead him to his true musical love - Country music.

Able to play and sing a wide variety of numbers he employs a good mix of traditional and modern American Country music in his performances using the familiar older favourites from artists such as Johnny Cash, Hank Williams & Kenny Rogers to keep general audience participation and interest going.

As an essential part of his act, TJ always appears on stage in full authentic Western gear. As well as his UK performances TJ has also appeared live in country music venues in Jackson and Nashville, Tennessee and Phoenix, Arizona and Las Vegas, Nevada.

Well known for his American interests TJ drives a Chevy Corvette for fun and has toured widely within the US covering more than 30 States. During his trips he never misses the opportunity to visit a local Honkytonk for some "downhome" country music.

Some of his favourite Country Artists include Alan Jackson, Brooks and Dunn, Travis Tritt and George Strait.

TJ is now currently performing throughout the North West & West Midlands with his brand new Country Music Theme Night. For a great night out enjoying the very best in Country music check out his forthcoming shows on the gigs page on the left.
