

# The Pirate Galleon Ship

A Hoy There!!!! The pirate galleon ship is the ultimate inflatable to grace any event. This action packed inflatable activity run is in the shape of a pirate's galleon ship with tall yellow masts, crowd control barrier, with entrance and separate exit.

All the children can be seen through the netted windows at all times, the children enter the unit through a double sized entrance to the left, clamber over inflatable pirate characters onto the next stage, where they have to climb through some odd shape holes in the dividing sections through the biff and bash section through more holes, more inflatable characters, up a cargo rope ladder and down a slide to finish.

After they do exit, the unit they make their way back to the start, on the children's side of the crowd control barrier back into the inflatable and start the adventure again. Of course they will be fully supervised by our own qualified staff.

This unit normally can handle between 250-300 children per hour. This pirate galleon ship has got a rain cover to hold off light showers. This inflatable measures a massive 75-foot long and 20 foot deep, including barrier.
