

Helicopter Simulator

Robinson R22 - Full Sized Helicopter Simulator

We are extremely proud to offer you our latest and greatest simulator product. The full sized Robinson R22 helicopter simulator! This is a unique virtual reality simulator and the worlds greatest big boys toy! You can wow your clients or reward your staff with a safe, but realistic experience of a life time.

We can transport the helicopter nationally or internationally.

The simulator uses the actual shell and controls of the Robinson R22 helicopter, we have only modified the exterior slightly in order for it to fit through most double door access. The helicopter can be used in a number of different ways indoors or out: (depending on space and access requirements) it makes an ideal focal point for exhibition stands and a great method of running competitions, it makes a great addition to team events, or way of entertainment for your guests as evening entertainment. The helicopter can even be used as a unique form of theming, ideal for big boys toys nights or 007 events.

Full size R22 Helicopter.

Computer and software for game.

VR goggles.

42" Viewing plasma screen.

Full supervision and event structure.

Score board to display times.

Helicopter Simulator Hire

As a virtual reality simulator - This utilizes the helicopter as a static simulator, whereby a virtual system is used rather than the helicopter moving. The pilot (you), using all the same, real, internal controllers must learn to pilot the Robinson R22 simulator, this time the pilot wears movement sensitive glasses and head phones and virtually flies over various landscapes and areas (including city scapes and alpine mountains) . The controls and graphics are incredibly realistic, coupled with the fact that you are viewing the inside of the R22 on screen, which is identical to the one you are sat in. This is the best simulated flight experience available and a must do for flight enthusiasts.
