Living Table Technical requirements:

Set Up

They tables take 1.5hrs to set up. The perfect locations for tables are at in reception and meet and greet areas, where the artist can set up and be ready as the guests arrive. Then ideally at the end of the hour the guest move into the event area / dinning area, leaving the artist to get out of and pack up the table with out guests watching.

In some cases (when the guests don't move to another area) the artist in the table will have to get out regardless of the guests still being there. (This doesn't look as good but still works as the table is left in the area till it can be packed down without guest watching).

Please note that anything that can stain the white table costumes are not allowed near the tables. (Any red wines or things with any coloring in them are BAD!)

The artists in the tables are very good at pouring Champaign or giving out things as long as they are kept well supplied. (As they cant get up and restock the table!)

Weight & Dimensions

Each table is 5 foot round and 3 feet tall.

For travel purposes the table's weights are:

Per table - 20 kgs @ 5 foot long, 2.5 foot wide, and 6 inches thick.

Tables costume - 1 large suit case - 10 KG
