Cheerleaders - London

This is the UK cheerleading club that specializes in events and promotion.

It is the only event squad that is linked to the UK's growing competitive cheerleading community and have won a number of awards including first place trophies.

They have members from prize-winning squads that can execute those moves that have been seen on "Bring It On". They're more than just uniforms and pom poms - though we can provide it if that's what the job is.

For any event they will guarantee a quality routine depending on your requirements - how many cheerleaders you need, the type of routine and style. They are based in London, but are happy to travel to other locations.

What They Do...

They have lots of different routines to choose from which all have exciting elements. They have a variety of club uniforms in various colour schemes however you may choose to provide promotional wear for the event. Their performance services are available for events and media work, and include but are not limited to:

"I managed to snap up the girls from London Cheerleaders at the eleventh hour to help us out for in-store fundraising to drum up support for Comic Relief.

The team came and put on a superb performance that attracted new customers to stop and take notice of the activity at TK Maxx.

The stunts were jaw-droppingly superb and their bespoke cheers were magic! I would definitely recommend getting in touch with The Cheerleaders to spice up your event"

Lucy McGonigle,
Press Officer, TK Maxx

"We were looking for an idea that would work for a title sequence for some American themed programming we were producing, and my researcher Danny came across the cheerleading idea. Once searched, booked and briefed on what we needed, 'The Cheerleaders' got to work on learning an appropriate routine and workout suitable for the filming required. When the filming day arrived, it went brilliantly and much better than I had anticipated. Jess, the manager was very approachable and helpful and the whole team gave us lots of options of what they were capable of and were very accommodating. The routine was fantastic as were their American accents and professionalism - I'd definitely work with The Cheerleaders in the future - it was an ease and a pleasure working with them."
